Education and Employment

Assistant Professor, Tsinghua University, 2025-*present*.

Associate Fellow, KICP, University of Chicago, 2021-2025.

PhD, Astrophysics, University of Michigan, Ann Arbor, 2017-2021.

MS, Astrophysics, University of Michigan, Ann Arbor, 2015-2017.

BS, Astronomy (Graduate with Honors), Peking University, 2011-2015

Scholarships & Awards

2021 - The IAU PhD Prize (Galaxies and Cosmology), IAU.

2021 - The ProQuest Distinguished Dissertation Awards, The University of Michigan.

2020 - Rackham Dissertation Fellowship, The University of Michigan.

2016-2019 - Rackham Travel Awards, The University of Michigan.

2015 - Weiming Physics Scholarship, School of Physics, Peking University.

2015 - Xingcheng Undergrad Research Forum, First Prize, School of Physics, Peking University.

2014 - Science Base Scholarship, Second Prize, Peking University.

2014 - NAOC Scholarship, National Astronomical Observatories, Chinese Academy of Sciences.

2013 - Lin Bridge Scholarship, Department of Astronomy, Peking University.

2013 - Zhang Wenxin Scholarship, School of Physics, Peking University.

Professional Services

2026-*present* MUST Extragalactic Science Working Group.

2025-*present* PhD Thesis Committee: Yaofei He (2025 THU); Yuqian Gui (2025 THU); Jingyi Zhang (2025 THU); Mengxuan Chen (2025 THU).

2025-*present* PhD Thesis Defense Committee: Hang Yang (2025 PMO); Dong Yang (2025 PKU); Yanling Chen (2025 THU).

2025-*present*, Solar Wind Magnetosphere Ionosphere Link Explorer (SMILE), Astrophysics Working Group, Member.

2024-*present*, Affordable Multiple Aperture Spectroscopy Explorer (AMASE), **CGM Working Group Co-Chair**.

2021-*present*, Hot Universe Baryon Survey (HUBS), Galactic Ecosystem Science Working Group, Member.

2023-*present*, External reviewer for HST.

2021-*present*, Referee for Science, SCPMA, AAS Journals (ApJ and ApJL), A&A, and MNRAS.

Research Advising

Postdoctoral

1. He Lin @ NJU->THU, 2026-*present*.

Graduate

8. Junle Wang @ BNU->THU, 2026-*present*.
7. Wenhao Wang @ XMU->THU, 2025-*present*.
6. Yuqian Gui @ THU, Co-advised with Dandan Xu, 2025-present.
5. Yuanzhen Han @ PMO, Co-advised with Shuinai Zhang and Li Ji, 2025-present.
4. Zeyang Pan @ UCAS, Co-advised Joel Bregman and Jifeng Liu 2021-*present*.
3. Suyash Kumar @ UChicago, Co-advised with Hsiao-Wen Chen, 2022-2025.
2. Cameron Pratt @ UMich, Co-advised with Joel N. Bregman, 2020-*2024*.
1. Hang Yang @ PMO, Co-advised with Joel Bregman and Li Ji, 2019-2025.

Undergraduate

5. Junle Wang @ BNU, 2025-2026.
4. Jinglun Dai @ THU, 2025-present.
3. Wenhao Wang @ XMU->THU, 2024-2025.
2. Eliana Schiller @ UChicago, Co-advised with Hsiao-Wen Chen, 2024-*present*.
1. Ryan Lindley @ UMich, 2019-2021.

Teaching

4. 2026 Spring, THU, instructor - Advanced Observational Astrophysics
3. 2025 Fall, THU, instructor (with Chris Ormel) - Special Topics in Theoretical Astrophysics
2. 2016 Fall, UMich, Graduate Student Instructor - Astro 102: Stars, Galaxies, and the Universe
1. 2016 Spring, UMich, Graduate Student Instructor - Astro 106: Aliens

Proposals and Grants

25. 2026 - *BTA 6-m Telescope*, 2027_1, BTA271.1303E, Main Program, 3 dark nights, **Co-I (PI: Wenhao Wang)**
"An Inclined View of Baryon Cycling in Dwarf Galaxies"

24. 2026 - *Lijiang 2.4-m Telescope*, 2026–2027, CHILI, 3 half nights, **PI**
"Baryon Cycling in Highly Inclined Dwarf Galaxies: Connecting the Interstellar and Circumgalactic Media"

23. 2026 - *Einstein Probe*, Cycle 3, Cycle3-0057, GO, 90 ks, **PI**
"Deciphering the Outflow and ISM/CGM Interplay toward the Galactic Center"

22. 2026 - *FAST*, 2026, SQB-2026-0172, 4 hrs, **PI**
"Resolving the ISM-CGM Connection in Highly-inclined Dwarfs"

21. 2025 - *FAST*, 2025, Key Program, 500 hrs, Co-I (PI: Jing Wang)
"FLOWER: FAST Long-exposure Observation of Wide-field HI Emission around/behind Resolved galaxies"

20. 2025 - *Einstein Probe*, Cycle 2, GO, 300 ks, Co-I (PI: Rui Huang)
"STP5/GES-WG: The Largest Hot Superbubbles Ever Seen in a Low Density Environment?"

19. 2025 - *Hubble Space Telescope*, Cycle 33, 18107, GO, 70 orbits, **Co-PI** (PI: Sean Johnson)
"Baryonic Escape, Abundances, and Thermodynamics in Cosmic Ecosystems (BEATriCE)"

18. 2025 - *Hubble Space Telescope*, Cycle 33, 18074, GO, 26 orbits, **Co-PI** (PI: Ava Polzin)
"PANCHO: Piloting a Novel Calibration for H2 Observations"

17. 2025 - *Hubble Space Telescope*, Cycle 33, 18039, GO, 9 orbits, Co-I (PI: Will Zhuoqi Liu)
"Confirming and Characterizing a Fast, Cool Inflow Toward a Luminous Quasar at $z = 0.78$"

16. 2024 - *Chandra*, Cycle 26, 26900274, GO, 190 ks, Co-I (PI: Joel Bregman)
"Identifying the Hosts of Hot Gas Absorption"

15. 2024 - *James Webb Space Telescope*, Cycle 3, 6665, GO, 16.2 hours, Co-I (PI: Alexander Beckett)
"DISCS: Direct Imaging Survey of Circumgalactic Structure"

14. 2024 - *Hubble Space Telescope*, Cycle 32, 17815, GO, 20 orbits, Co-I (PI: Alexander Beckett)
"DISCS: Direct Imaging Survey of Circumgalactic Structure"

13. 2024 - *Hubble Space Telescope*, Cycle 32, 17803, GO, 51 orbits, Co-I (PI: Sean Johnson)
"The first multi-phase survey of the circumgalactic medium of quasar hosts at $z < 1$"

12. 2024 - *FAST*, 2024, SQB-2024-0058, 15 hrs, Co-I (PI: Xuchen Lin) "Contiguous H I Mapping for Galaxies Evolving in 10^{13} $M_{\odot}$ Galaxy Groups"

11. 2023 - *Hubble Space Telescope*, Cycle 31, 17517, GO, 131 orbits, Co-I (PI: Hsiao-Wen Chen)
"CONTACT: Circumgalactic Observations of Nuv-shifted Transitions Across Cosmic Time"

10. 2022 - NASA Astrophysics Data Analysis Program, **Co-PI** (PI: Hsiao-Wen Chen), $454.6k
"Probing Feeding and Feedback in the Circumgalactic Medium Using OVI As a Tracer"

9. 2022 - *XMM-Newton*, AO22, 092249, GO, 133 ks, Co-I (PI: Joel Bregman)
"Closing the Baryon Census of Nearby Luminous Spirals with X-ray and tSZ Observations"

8. 2022 - *Hubble Space Telescope*, Cycle 30, 17116, GO, 30 orbits, Co-I (PI: Joel Bregman)
"The Hot Multi-Temperature Gaseous Halos of Galaxies and Groups"

7. 2022 - *Hubble Space Telescope*, Cycle 30, 17049, AR, **Co-PI** (PI: Ava Polzin)
   "Elucidating Galaxy Quenching with Absorption Probes of Halos around Low-mass Dwarfs"
6. 2021 - NASA Astrophysics Data Analysis Program, Co-I (PI: Joel Bregman), $692.8k ($80.0k goes to U. Chicago)
   "Resolving the Hot Halos to the Virial Radius and Beyond in the Local Universe"
5. 2019 - *Hubble Space Telescope*, Cycle 27, 15806, AR, **PI**, $97.6k
   "The Rotation, Accretion, and Mass of the Milky Way Warm Gas Disk and CGM"
4. 2018 - NASA Astrophysics Data Analysis Program, Co-I (PI: Joel Bregman), $526.4k
   "Hot Halos of Galaxies and Galaxy Groups-Reservoirs of Baryons and Metals"
3. 2018 - Magellan Telescope, Cycle 2018A, 2 nights, **PI**,
   "Host Galaxies of the Mg X/Ne VIII Absorption Systems: LBQS 1435-0134"
2. 2018 - Magellan Telescope, Cycle 2017B, 3 nights, **PI**,
   "Host Galaxies of the Mg X/Ne VIII Absorption Systems: PHL 1377"
1. 2017 - *Chandra* X-ray Observatory, Cycle 18, 50 ks, Co-I (PI: Joel Bregman),
   "Gaseous Galaxy Halos in the Transition Between Hot and Cold Mode Accretion."

Conferences & Talks

44. Oct. 2026 - Talk, "From Baryon Census to Gas Flows (at $z < 0.5$): the Dynamic Multiphase CGM", Dynamic Cosmic Structures (DCS), Hangzhou, China.
43. Aug. 2026 - Early Science Case, "The Circumgalactic Medium: Early Science Targets", AMASE, Kunming, China.
42. Jun. 2026 - Talk, "Tracing Multiphase Gas Cycling from Cosmic Noon to the Local Universe with CSST/MOS", CSST MOS, Shenzhen, China.
41. Jun. 2026 - Contributing talk, "Kinematic Signatures of Accretion and Feedback in the Circumgalactic Medium", Guoshoujing Conference, Haikou, China.
40. Jun. 2026 - Contributing talk, "Kinematic Diagnostics of the Circumgalactic Medium: Accretion and Feedback", HUBS SWG1, Guiyang, China.
39. Jun. 2026 - Talk, "Isolating the Milky Way's Hot CGM: Disentangling SWCX from Hot Gas Emission", NJU, Suzhou, China.
38. May 2026 - **Seminar**, "Multi-Scale Dynamic Gas in the Galactic Ecosystem", FDU, China.
37. Apr. 2026 - **Seminar**, "Multi-Scale Dynamic Gas in the Galactic Ecosystem", NAOC, China.
36. Dec. 2025 - **Invited talk**, "Mapping the Cool Circumgalactic Medium around Active Galaxy Nuclei", The 3rd AGN feedback conference, Nanjing, China.
35. Dec. 2025 - Talk, "The Circumgalactic Medium and Its Interface with the Interstellar Medium", AMASE-P Critical Design Review, Hongkong, China.
34. Nov. 2025 - Talk, "The Multiphase Circumgalactic Medium in UV Absorption", Diffuse Ionized Gas in Galaxies, Groups and Clusters – New Insights with New Space Observatories, Suzhou, China.
33. Nov. 2025 - Contributing talk, "Earth's Magnetospheric X-ray Emission Revealed in the X-LEAP program", SMILE Science Meeting, Chengdu, China.

32. Sept. 2025 - **Invited talk**, "FLOWER: FAST Long-exposure Observation of Wide-field HI Emission around/behind Resolved galaxies", FAST 2nd Science Conference, Pingtang, China.

31. Sept. 2025 - **Colloquium**, "Multi-phase Dynamic Gas in the Circumgalactic Medium", USTC, Hefei, China.

30. Aug. 2025 - Contributing talk, "The Multi-phase Diffuse Gas in the Milky Way", Russian-Chinese Meeting on High Energy Astrophysics, Moscow, Russia.

29. Jul. 2025 - Early Science Case, "Joint Analysis of Euclid Deep Field – the Formation of Large-scale Structure at the Cosmic Noon", CSST 2025 Science Meeting, Kunming, China.

28. Jun. 2025 - Contributing talk, "Probing Turbulence (?) in the CGM", Galactic Ecosystem in the Past Billions of Years, Beijing, China.

27. Jun. 2025 - **Invited talk**, "Multi-Wavelength View of the Milky Way Circumgalactic Medium", The 3rd HUBS workshop (2025), Beijing, China.

26. Jun. 2025 - **Invited talk**, "The Hot Diffuse Gas in the Milky Way and Solar Wind Charge Exchange", ISSI-BJ, Beijing, China.

25. May 2025 - Contributing talk, "Cool Gas in the Galactic Ecosystem", Guoshoujing Conference (Galaxy), Changsha, China.

24. May 2025 - AMASE Workshop, "Searching for Feedback or Accretion Features in the ISM-CGM Interface and CGM", XTU, Xiangtan, China.

23. Apr. 2025 - Colloquium, Dynamic Gas in the Galactic Ecosystem, Yunnan University, Kunming, China.

22. Apr. 2025 - Online talk, "X-LEAP: Decomposing the Milky Way Hot Gas Emission and the Foreground SWCX", SMILE Science Meeting, Leiden, Netherlands.

21. Apr. 2025 - Contributing talk, "Galactic Hot Gas and Solar Wind Charge Exchange: Insights from XMM-Newton", HUBS Galactic Science Work Group Meeting, Nanjing, China.

20. Apr. 2025 - Contributing talk, "(Potential?) Feedback Imprints in Diffuse Gas", Nearby Galaxy Symposium, THU, Beijing, China.

19. Mar. 2025 - Contributing talk, "X-LEAP: Decomposing the Milky Way Hot Gas Emission and the Foreground SWCX", Einstein Probe Diffuse Gas Workshop, Nanjing, China.

18. Nov. 2024 - Contributing talk, "The Multiphase Circumgalactic Medium from Low-mass Dwarfs to Massive Quiescent Galaxies at $z <\sim 1$", Resolving the Circumgalactic Medium and its Impact on Galaxy Evolution, Santa Cruz, Chile.

17. Aug. 2024 - Toward a Holistic Understanding of the Multi-scale, Multiphase Circumgalactic Medium, Aspen, Colorado, US.

16. Feb. 2024 - **Invited talk**, "On the Cosmic Ecosystem: Insights from the Multiphase Circumgalactic Medium", Diffuse Gas in Cosmic Ecosystems (DGCE) Science Interest Group, Online.

15. Apr. and Dec. 2023 - Seminars, FDU, XAO, XMU, SYSU, SHAO, SJTU, ZJU, THU, PKU, NAOC, PMO, USTC, NJU, China.

14. Dec. 2023 - Contributing talk, "The Mass Budget of Multiphase Circumgalactic Medium at $z \leq 1$", Resolving Galaxy Ecosystems Across All Scales, Hong Kong, China.

13. Nov. 2023 - **Invited talk**, Astro Galread Discussion Group, Princeton, US.
12. Feb. 2023 - Contributing talk, Oases in the Cosmic Desert, "On the thermodynamic properties of the cool CGM at z < 1", Tempe, Arizona, US.
11. Aug. 2022 - Instructor, The 1st "High-Resolution X-ray and UV (HiXUV) Spectroscopy Capability Building Workshops" , Virtual Workshop.
10. Jan. 2021 - **Invited talk**, OSU CCAPP Seminar, "Warm-Hot Circumgalactic Medium and its Co-Evolution with Galaxy Disk", Columbus, Ohio, US.
9. Nov. 2020 - Caltech CGM Seminar, "Warm-Hot Circumgalactic Medium and its Co-Evolution with Galaxy Disk", Pasadena, California, US.
8. Oct. 2019 - WIM Workshop, Contributing Talk, "The Warm Gas in the MW – Rotation, Accretion, and Mass", Green Bank, West Virginia, US.
7. Aug. 2018 - XXX IAU General Assembly, "The Mass and Column Densities of Galactic Gaseous Halos", Vienna, Austria.
6. Jul. 2018 - CGM Workshop 2018, Contributing Talk, "The Mass and Column Densities of Galactic Gaseous Halos", Northwestern University, Evanston, Illinois, US.
5. Mar. 2018 - Seminar, "Understanding the Galaxy Evolution with Gaseous Halos", Peking University, Beijing, China.
4. Mar. 2018 - Colloquium, "Understanding the Galaxy Evolution with Gaseous Halos", The Purple Mountain Observatory, Nanjing, China.
3. Jan. 2018 - 231st AAS Meeting, "The Mass and Absorption Columns of Galactic Gaseous Halos", Washington, DC, US.
2. Aug. 2017 - 16th HEAD Meeting, "Detection of Possible Intervening Mg X Associated with A Hot Gaseous Galaxy Halo", Sun Valley, Idaho, US.
1. Jul. 2014 - Fast Pulsar Symposium 3, "Analysis of Short Bursts in AXPs/SGRs", Shanghai, China.
